

COLLABORATION TERM

The Municipal Health Department of Salinas comes, through this document, to declare that it is a partner in the development of the app “KD-Covid”, within the scope of the project “Detect to face: Monitoring and diagnosis of oligosymptomatic cases of COVID-19 through digital, geospatial and molecular tools”, which aims to assist in the detection and monitoring of oligosymptomatic cases of the disease in the city of Salinas and the northern region of Minas Gerais. The results obtained with the “KD-Covid” app will be used by the health department to plan the necessary inputs in the Health System and will enable a faster and more effective response in facing Covid-19 and protecting the population involved.

Salinas/MG, July 23, 2020

MARLÚCIA DE FÁTIMA
Municipal Health’s Secretary
